# Les outils TEXTES

The image shows a software interface for editing a document. On the left, a document page is displayed with a blue box highlighting a text input area. The document content includes a header for 'Glg-Onslow', a diagram for 'Cycle 4' with '4 THEMATIQUES', a table for class and teacher information, and illustrations of various technologies. On the right, the 'Propriétés' (Properties) panel is open, showing the 'Caractère' (Character) section with 'Comic Sans MS' font and size '14', and the 'Paragraphe' (Paragraph) section with various alignment and spacing options.

# Les outils du CADRE TEXTES

This image shows the same software interface as above, but with the 'Propriétés' panel expanded to show the 'Zone' (Frame) and 'Position et taille' (Position and size) sections. A blue arrow points from the text box in the document to the 'Position et taille' section in the properties panel. The 'Position et taille' section shows the following values: Horizontal: 0,30 cm, Vertical: 8,10 cm, Largeur: 10,82 cm, Hauteur: 4,55 cm. There is also a 'Rotation' field set to 0,00°.
