

# Exploitation de La fonction RADIO-COMMUNICATION

**Système RECEPTEUR :**

**MICRObit1**

Programme

en

**CARTE 1**

```
au démarrage
  radio set group 1

on radio received receivedNumber
  si receivedNumber = 2
  alors afficher texte " A "
  si receivedNumber = 3
  alors afficher texte " B "
```

**Programme en CARTE 2 :**

A screenshot of the Microsoft MakeCode online programming interface for a Microbit. The interface shows a project titled "micro:bit" with a search bar and a sidebar containing various blocks like Basic, Input, Music, Led, Radio, Loops, Logic, Variables, and Math. The main workspace displays the following code:

```
on start
  radio set group 1

on button A pressed
  radio send number 2

on button B pressed
  radio send number 3
```

**Système EMETTEUR :**  
**MICRObit2**

**HOW THIS WORKS?**

La carte qui permet d'envoyer le signal bouton A ou bouton B appuyé...
